*Current GPA: **.***

Academic Distinctions

College of Arts Sciences and Letters (CASL) Deans List Distinction

I was named on the CASL deans list **multiple times** during my time at the University of Michigan- Dearborn. In order to be named on this list, a student must be a full time student (**12+ credits**) while maintaining a **3.5 or above** grade point average

The National Society for Leadership and Success (NSLS) Nomination

Due to my academic achievement, I was nominated to be a part of the NSLS while attending the University of Michigan Dearborn.

Standardized Tests

Medical College Admission Test (MCAT).....Verbal Reasoning:*
Physical Sciences:**
Biological Sciences:*
Writing Score:*
Composite:**
Date Administered: September 3, 2011

Activities and Volunteering

The Muslim Students Association at the University of Michigan Dearborn January 2011-Present

I held at Executive Board Position in the UMD-MSA as the Information Technology Coordinator. During my two terms in this position, I restructured the outdated email and web platform used by the organization in the past. I built a new website in quick loading Flash language and developed an iOS application for members to keep up to date with the organization while on the go. While serving as IT chair, I also helped plan many events that promoted religious diversity among many faith and cultures. www.msadearborn.org

The West Utica Elementary MEAP/Math Tutor March 2009 – June 2009

At the West Utica Elementary School, I served as both a math tutor for grades 1-6 and also a MEAP tutor for grade 4 students. Students in the previous years had struggled with the geometry section on the MEAP exam. I designed a game on the program Geometers Sketchpad that allowed students to both have fun and learn geometry at the same time. As a math tutor, I helped students who were failing mathematics raise their grades into the A and B range by designing games to make learning math more appealing. Letters of recommendation from school principal and teachers are available upon request.

The University of Michigan Student Government Webmaster.....June 2011-January 2012

While serving at the student government Webmaster, I designed a fully functioning flash website. Flash websites are quick loading and are very interactive and easy for the student body to use. I also designed a way to allow student organizations to reserve the campus rock for painting. The system allows for students to log into the website and fill out a form which is emailed directly to the committee that deals with campus reservations. www.sg.umd.umich.edu

Amnesty International: The University of Michigan-Dearborn Chapter Webmaster September 2012-Present

I currently serve as the webmaster for the Amnesty International group at the University of Michigan Dearborn. I designed and hosted the website for this organization. www.amnestydearborn.org

The Unity and Diversity Interfaith Dinner March 2011 & March 2012

The Unity and Diversity Dinner is an annual event hosted by the University of Michigan-Dearborn Muslim Students Association. This is the largest held student dinner in the state of Michigan. For two years now, I have served as the Director of Technology. I have designed a separate event website for this dinner and have set up online ticket sales that are responsible for thousands of dollars of ticket sales. I also coordinate the audio, video and technology during the event.

Institute for Social and Political Understanding Annual Banquet Volunteer..... October 2012

Each year the ISPU holds a banquet each year in order to discuss culminating events going on in the country. In 2011 the topic was the 10 year anniversary of the September 2001 attacks. ISPU holds a fundraiser at this dinner in order to fund their research. I acted as a dinner volunteer at this event.

Detroit Medical Center: Emergency Room Physical Shadowing Program.....December 2011- Present

At the DMC, I shadowed Dr. Devon Moore, the Chief Resident in the field of emergency medicine. While shadowing I was able to obtain patient contact while shadowing here. Though I was not allowed to touch an patients, I was able to view a lot of trauma cases. Also, the doctors taught me many skills such as how to wrap a cast, and how to take determine normal breathing patterns.

The concept of a fast a thon is simple. Students on campus fast from sun up to sun down and those who cannot fast can sponsor those who are fasting. All proceeds are donated to a good cause. In November of last year, I organized a fast a thon in order raise money for the drought going on in Africa. Building a well is gift that keeps giving. I decided I wanted to raise money to build a well in Somalia. Thankfully we were able to reach our monetary goal, and we were able continue raising money for this cause even much after the event.

Future Research Position: Providence Hospital Biomedical Research Program.....TBA
